

“I want to work in a dimly-lit office,”
said no one ever.

Senior Engineers

As part of the Marine Atlantic team, you will participate in a variety of ongoing training programs and development opportunities to navigate your career and chart your course for success. We provide a positive and inclusive work culture that is dedicated to creating an environment which promotes employee growth, career development, and job satisfaction. Some benefits of working with Marine Atlantic include competitive salaries, defined benefit pension plan, comprehensive health benefit packages, and professional development opportunities. Come experience the pride of working with an organization with newly constructed and revitalized infrastructure that has positioned itself for the future.

Marine Atlantic is currently looking for **Senior Engineers** to work onboard our vessels that operate from the ports of Port aux Basques NL and North Sydney NS year round; and Argientia NL during the summer season. These positions are permanent full-time spare and relief positions that are scheduled across our fleet and each tour based on operational requirements.

Reporting directly to the Chief Engineer, the Senior Engineer performs their watchkeeping duties from the Main Control Room.

This position is responsible for the safe operation of all mechanical equipment and systems in the machinery spaces. The Watchkeeping Engineer is responsible for the refueling of the vessel, ensuring all safety procedures are followed.

Under the direction of the Second Engineer, this position is required to perform both preventive maintenance as scheduled by the Maintenance System and also carry out corrective maintenance as required. The Senior Engineer in Charge of the Watch must be capable of making quick decisions in critical situations and provide supervision to the engine room staff when performing their engine room activities. Good communication skills are required when dealing with other departments to ensure a safe and efficient operation.

What qualifications do I need to be considered for this opportunity?

Education and Certification

Minimum 3rd Class Motor Certificate

Qualifications

- 24 months recent experience in a similar position
- Marine STCW 6.1 and 6.2
- Propulsion Plant Simulator Certificate II
- Transport Canada mandated Marine Medical Certificate
- Effective communication skills when interacting with the vessel's crew and other associated personnel
- Must demonstrate ability to lift, handle, and carry heavy objects over 20 kg
- Must be able to work in confined spaces

Asset Qualifications

- Graduate of a recognized Marine school in a related program
- Work experience as a Welder, Diesel Mechanic, Heavy Duty Mechanic, Refrigeration, Machinist, Pipe-fitter, and Electronics
- Passenger Safety Management
- Confined Space Certification

This position is designated as a safety sensitive position and is subject to the provisions of Marine Atlantic's Drug and Alcohol Policy which includes testing.

Marine Atlantic's Tour Pattern

There is a monthly tour pattern for regularly assigned positions of 15 days on and 15 days off, normally commencing the 1st and 15th of each month. As a new employee, you will be called for work in accordance with operational requirements; therefore, you may be required to work in intervals throughout both tours (i.e. one month) in order to obtain 15 days of work. Please note, you may work in excess of 15 days per month should it be operationally required.
