FAMILY PACKAGE APPLICATION CHECKLIST (con't)

Locate all Family Members in your Family Package on a family tree to show how each person is related to the Main Applicant.

Assign numbers to each Family Member (which correspond to the list on the reverse side). Describing each person's relationship to the Main Applicant (son, granddaughter, etc.) will also be of help. [Siblings and cousins of the Main Applicant: put the name of the ancestor you share with the Main Applicant on the first line of your family tree. Add your family members as they relate to the shared ancestor. Highlight or circle the Package's Main Applicant.] Adapt this chart or use more paper if needed. Extra family tree forms can be downloaded from www.qalipu.com. For more information and a sample family tree, see guidelines pages 38-39.
