

Calibre Mining Corporation is engaged in the exploration and development of the Valentine Gold Mine located in the central region of Newfoundland and Labrador. Once in production, it will be the largest gold mine in Atlantic Canada and a major employer in the province. Calibre is a public corporation (TSX:CXB) headquartered in Vancouver, British Columbia with a regional office located in Grand Falls-Windsor, NL.

Additional corporate and Project information is available at www.calibremining.com

Calibre is currently inviting applications for a **Fleet Management Specialist** to join our growing team as the company transitions from mine construction to mine operations.

Fleet Management Specialist

Reporting to the Senior Mine Engineer, the Fleet Management Specialist is responsible for managing the implementation and operation of the fleet management and data recording system. This role will deliver technical support to the production and engineering team. The Fleet Management Specialist will be responsible for all technical aspects of the fleet management system functions to ensure production objectives are met in a safe, environmentally responsible, and efficient manner.

This position is located at the Project site, working on a 14 days in/14 days out rotation.

Accountabilities/Responsibilities:

- Demonstrates leadership in Health, Safety and Environment through personal behaviors and conversations.
- Establish and promote a respectful and healthy work environment at all times.
- Actively participate in and help lead site safety initiatives.
- Operate the fleet management systems to optimize equipment utilization, productivity, and operating costs.
- Responsible for overall Fleet Management System operation and maintenance.
- Interact with dispatch personnel and provide assistance as required.
- Analyze data quality by reviewing the daily cycles and digging accuracy to provide reports as required.
- Maintain onboard configuration for dispatch equipment and data files.
- Assist in identifying training needs.
- Adhere to all company policies and procedures.
- Perform other duties as assigned.

Education and Experience Required:

- Bachelor's Degree in Mining, Engineering, or IT-related field required.
- Professional Engineering designation is preferred.
- Minimum of 5 years of experience in a similar role within an industrial and/or mining environment.
- Experience at a remote site is required.

Skills and Knowledge:

- Knowledge of health, safety, and environmental requirements at remote sites.
- Knowledge of the OHS, mining, and construction regulations.
- Experience in troubleshooting networks.
- Experience with Microsoft Office, SQL databases, and PowerBI preferred.
- Ability to work outside in varied weather conditions for extended periods of time required.
- Ability to cross-train with the IT and dispatch group required.
- A valid driver's license and driver's abstract required.

Calibre is an equal opportunity employer committed to local hiring preferences and all applications will be considered on this basis. We value equity and diversity and are committed to creating an inclusive workplace environment for all employees. Calibre reserves the right to hire only those candidates who are appropriately qualified for the position advertised.

Calibre will review all applications; however, we will only contact those candidates who best fit the requirements.
