

Calibre Mining Corporation is engaged in the exploration and development of the Valentine Gold Project (the “Project”) located in the central region of Newfoundland and Labrador. Once in production, it will be the largest gold mine in Atlantic Canada and a major employer in the province. Calibre is a public corporation (TSX:CXB) headquartered in Vancouver, British Columbia with a regional office located in Grand Falls-Windsor, NL.

Additional corporate and Project information is available at www.calibremining.com

Calibre is currently inviting applications for a Grade Control Technician to join our growing team as the company transitions from mine construction to mine operations.

Grade Control Technician

Reporting to the Senior Mine Resource Geologist, the Grade Control Technician will be responsible for carrying out a variety of geology assignments and assisting in multiple areas of the Mine Geology Department.

This position will be located at the Project site, working on a 14 days in/14 days out rotation.

Accountabilities/Responsibilities:

- Establish and promote a respectful and healthy work environment.
- Participate in grade control processes, providing support to senior geological staff.
- Conduct chip sampling from RC rig and perform chip logging and sample dispatch as required.
- Collect in-field ARD and ML samples
- Contribute to daily, weekly, and monthly reports.
- Conduct digitized geological mapping of mineralized and/or sterile development.
- Provide monitoring, tracking, and reporting on tonnes in the active pit.
- Perform field surveying using high-accuracy GPS for drillhole setup and collar surveying.
- Strive for continuous improvement in all responsibilities.
- Ensure work is performed safely and efficiently while adhering to all company policies and procedures.
- Provide technical support and consultation to senior geological staff, including geological interpretation.
- Conduct sample collection and QA/QC of samples, as well as data management.
- Delineate grade blocks and perform field inspections.
- Perform other duties as required.

**Education and Experience:**

- A College Diploma in a geological related field or post-Secondary completion in a related field of study.
- A minimum of 3 years of mining experience, preferably in a remote industrial environment.
- Experience in a remote work site is required.
- A valid driver's license and driver's abstract required.

Skills and Knowledge:

- Knowledge of health, safety, and environmental requirements at remote sites.
- Knowledge of the OHS, mining, and construction regulations.
- Effective time management skills and able to manage multiple priorities.
- Strong computer skills for use of Microsoft Office products.
- Ability to work in team settings and independently.

Calibre is an equal opportunity employer committed to local hiring preferences and all applications will be considered on this basis. We value equity and diversity and are committed to creating an inclusive workplace environment for all employees. Calibre reserves the right to hire only those candidates who are appropriately qualified for the position advertised.

Calibre will review all applications; however, we will only contact those candidates who best fit the requirements.
