

A black and white photograph of a young man and woman embracing. The woman is smiling and looking down at the man, who is also smiling. They are in a close, affectionate pose.

This moment brought to you by
MARINE ATLANTIC

At Marine Atlantic, we need people like you to create moments like this.

Machinist

At Marine Atlantic, we do so much more than get people from point A to point B. Whether it's reunions, long-awaited trips home, or the start of a new adventure, we bring people together. We couldn't bring people together every day without our own dedicated employees. Our employees embody our core values; they are a diverse, safety oriented team-players who exhibit integrity and commitment, and always strive for excellence. Their understanding and commitment to our values make our employees an invaluable part of our organization.

Marine Atlantic is currently accepting applications for a **Machinist** to work with our Facilities Management Department in Port aux Basques, NL.

Reporting to the Plant Maintenance Supervisor, Machinists will perform tasks to sustain the terminal onshore preventative maintenance program as outlined in the preventative maintenance job plans, ensuring minimum down time with a cost-effective approach to vessel schedules and operational requirements whether planned or unplanned.

Machinists are responsible for maintaining onshore based terminal equipment, including wharf and transfer bridges, facilities, terminal support vehicles and emergency generators. Machinists also must interpret drawings, equipment service and operation manuals, obtain cost estimates, make sketches, work at heights, order materials, and complete daily time reports. Machinists set up and operate a variety of machine tools to cut or grind metal, plastic, or other materials to make or modify parts or products with precise dimensions, as well as perform welding services when required.
