

Mechanical Estimator

We are seeking a highly motivated and skilled **Mechanical Estimator** to join our team. As an Estimator with Cahill, you will join our collaborative team of Estimators in St. John's, NL, while working closely with stakeholders across the organization. You will play a critical role in the pre-construction phase of our projects. You will be tasked with assessing project requirements, reviewing technical specifications, and preparing accurate cost estimates.

What will you do?

- Attend site visits, reviewing and critically analyzing tender documents for unclear technical or commercial items and submitting queries to the client for response, consciousness of other disciplines for interfaces or interferences
- Perform take-offs, obtaining pricing from supply chain, participating in the development of project schedule and execution plans.
- Develop bid preparation schedule identifying the tasks, assignments, and deadlines, for preparation of more complex bids
- Develop takeoffs to ensure it is aligned with tracking requirements for job cost and schedule – per system, per drawing, per floor and by phase, requesting quoted prices, identifying subcontractors, estimating project expenses with the appropriate management.
- Develop and adhere to estimate breakdown standards, compiling a risk register for management review, and preparing submittal documents
- Prepare final estimate breakdowns and analyzing each section for scope, price and completeness
- Participate in estimate reviews prior to submittal to the client
- Complete post-bid analyses on jobs bid and document lessons learned
- Integrate lessons learned and tracking from Project back into historical data for future reference

What will you bring?

- 3-5 years of relevant experience
- Mechanical engineering degree, diploma or trade certification
- Knowledge of Accubid/Trimble estimating software packages or similar is an asset; training can be provided
- Must be able to read and interpret construction drawings and specifications
- Ability to strategically make decisions under pressure

The Cahill Group is one of the largest multi-disciplinary construction companies in Canada. Cahill is building the future of oil and gas, mining, hydro, and social infrastructure on some of the largest construction and fabrication project sites in the country. People really are at the heart of everything we do. So, we will always put the health, well-being, and

safety of our people above all. We take care of our people, through investment, training, competitive compensation, health plan benefits, and unique programs to support the health and well-being of you and your family.

We believe that a diverse and inclusive culture creates a work environment that is supportive, engaging and rewarding. We welcome, recognize, and celebrate diverse backgrounds, cultures, demographics, perspectives, and experiences within our team. Being you at The Cahill Group is what makes us stronger and enables innovation and creativity in meeting tomorrow's challenges. We are proud to be an equal opportunity employer actively seeking to recruit a diverse and talented workforce.

If you require any accommodation in the recruitment process, please let us know. While we thank all applicants for their interest, only those under consideration will be contacted.
