

Calibre Mining Corporation is engaged in the exploration and development of the Valentine Gold Mine located in the central region of Newfoundland and Labrador. Once in production, it will be the largest gold mine in Atlantic Canada and a major employer in the province. Calibre is a public corporation (TSX:CXB) headquartered in Vancouver, British Columbia with a regional office located in Grand Falls-Windsor, NL.

Additional corporate and Project information is available at www.calibremining.com

Calibre is currently inviting applications for a **Mine Engineer – Long Range** to join our growing team as the company transitions from mine construction to mine operations.

## Mine Engineer – Long Range

Reporting to the Senior Mine Engineer, the Mine Engineer – Long Range is responsible for a full range of engineering functions including but not limited to long-range mine planning, pit design, fleet sizing, and production reporting. The Mine Engineer – Long Range will have direct involvement and communication with staff from other departments. This role supports the department's vision to optimize productivity and maintain the profitability of development and operation, while promoting and respecting Health, Safety, and the Environment.

This position is located at the Project site, working on a 14 day in/14 day out rotation, or a remote location working Monday-Friday with periodic travel to the mine site.

## Accountabilities/Responsibilities:

- Demonstrate leadership in Health, Safety, and Environment through personal behaviors and conversations.
- Establish and promote a respectful and healthy work environment at all times.
- Provide long-term mine plans, production schedules, and communicate to stakeholders.
- Reconcile the long-term plans and identify areas for improvement.
- Identify risks (equipment, resources, grade, etc.) and opportunities that may impact the mine plans.
- Design pit phases based on geological block model and other constraints such as mining limitations, slope design criteria, and facility location.
- Design waste dumps, stockpiles, access roads, ramps, and other mine site facilities.
- Confirm that pit designs are properly implemented in the field through collaboration with Mine operations.
- Maintain accurate records and files including Key Performance Indicators for Mining.
- Develop, maintain, and follow mine planning standard procedures, guidelines, and best practices.
- Meet or exceed established performance expectations set by management.
- Work safely in all areas, identify potential safety hazards, and work with management to correct them.
- Monitor departmental needs to ensure alignment with departmental and company objectives.

- Collaborate with the technical services team in analyzing various mine plan scenarios to identify, assess and capture opportunities.
- Collaborate with other departments to ensure proper coordination in terms of reporting, planning, forecasting, stockpile management, month-end reporting, and other shared activities.
- Adhere to all company policies and procedures.
- Perform other duties as assigned.

## **Education and Experience:**

- Mining Engineering or Civil Engineering degree.
- P. Eng or eligible to attain.
- Minimum of 7 years of experience in mine engineering, including mine planning.
- Experience in a remote work site is preferred.
- Experience in Mine Planning Software (Vulcan, Deswik, etc.).

## **Skills and Knowledge:**

- Knowledge of health, safety, and environmental requirements at remote sites.
- Knowledge of the OHS, mining, and construction regulations.
- Knowledge of engineering techniques as they apply to pit design, mine planning and equipment analysis required.
- Excellent report writing skills.
- Ability to communicate effectively at all levels.
- Attention to detail in all aspects of responsibilities.
- Flexibility and ability to work in a team environment.
- Ability to take initiative and work independently while supporting team members.
- Highly skilled in computer applications such as Microsoft office suite (Outlook, Word, Excel, PowerPoint, Access).
- A valid driver's license and drivers abstract required.

Calibre is an equal opportunity employer committed to local hiring preferences and all applications will be considered on this basis. We value equity and diversity and are committed to creating an inclusive workplace environment for all employees. Calibre reserves the right to hire only those candidates who are appropriately qualified for the position advertised.

Calibre will review all applications; however, we will only contact those candidates who best fit the requirements.
