

Calibre Mining Corporation is engaged in the exploration and development of the Valentine Gold Mine located in the central region of Newfoundland and Labrador. Once in production, it will be the largest gold mine in Atlantic Canada and a major employer in the province. Calibre is a public corporation (TSX:CXB) headquartered in Vancouver, British Columbia with a regional office located in Grand Falls-Windsor, NL.

Additional corporate and Project information is available at [www.calibremining.com](http://www.calibremining.com)

Calibre is currently inviting applications for a **Process Plant Electrical Apprentice** to join our growing team as the company transitions from mine construction to mine operations.

## **Process Plant Electrical Apprentice**

Apprentice Electricians possess the full range of knowledge required to install, connect, test, and maintain electrical systems for a variety of purposes, including climate control, security, lighting, power sources and communications.

This position is located at the Project site, working on a 14 days in/14 days out rotation.

### **Responsibilities/Accountabilities:**

- Install, alter, repair, and maintain various electrical systems and related equipment
- Read and interpret electrical and mechanical code specifications
- Plan layouts and illustrations of electrical wiring, equipment, and fixtures based on job specifications and local codes
- Provide preliminary sketches and cost estimates for materials and services
- Inspect electrical systems, equipment, and components to identify hazards and defects to ensure compliance with codes

### **Education and Experience Required:**

- Must be a registered Apprentice with the appropriate provincial authority
- Experience working in a remote industrial environment is preferred.
- A valid driver's license and a driver's abstract required.

### **Knowledge and Skills:**

- Excellent communication, analytical, and problem-solving skills with high attention to detail.
- Team player with the ability to work independently to meet deadlines, goals, and objectives.
- Strong ability to work under pressure and adapt to a fast-paced environment.
- Exceptional ability to effectively deal with a variety of stakeholder requests and issues.
- Knowledge of health, safety, and environmental requirements at remote sites.

- Strong knowledge of the OHS, mining, and construction regulations.
- Knowledge of the repair and maintenance of fixed plant equipment.
- Ability to read and interpret prints.
- Flexibility regarding work activities and type of work requirements.
- The ability to work in a multi-discipline, multi-tasking, team environment.
- Strong computer skills with competence using Microsoft Office products.
- Ability to influence and inspire others and manage cross-functional relationships

Calibre is an equal opportunity employer committed to local hiring preferences and all applications will be considered on this basis. We value equity and diversity and are committed to creating an inclusive workplace environment for all employees. Calibre reserves the right to hire only those candidates who are appropriately qualified for the position advertised.

Calibre will review all applications; however, we will only contact those candidates who best fit the requirements.
