

Calibre Mining Corporation is engaged in the exploration and development of the Valentine Gold Project (the “Project”) located in the central region of Newfoundland and Labrador. Once in production, it will be the largest gold mine in Atlantic Canada and a major employer in the province. Calibre is a public corporation (TSX:CXB) headquartered in Vancouver, British Columbia with a regional office located in Grand Falls-Windsor, NL.

Additional corporate and Project information is available at www.calibremining.com

Calibre is currently inviting applications for a **Process Plant Mechanical Apprentice** to join our growing team as the company transitions from mine construction to mine operations.

Process Plant Mechanical Apprentice

A Mechanical Apprentice assists in installing, maintaining, and repairing industrial machinery under the guidance of seasoned Millwrights. Responsibilities include learning technical blueprints, handling tools, and performing routine checks.

This position is located at the Project site, working on a 14 days in/14 days out rotation.

Accountabilities/Responsibilities:

- Assist millwrights in the installation, repair and maintenance of machinery and equipment
- Read and interpret technical drawings and schematics
- Use hand and power tools to assemble and disassemble machinery
- Inspect and test machinery to diagnose issues and troubleshoot problems
- Perform basic welding and fabrication tasks
- Follow safety procedures and wear appropriate personal protective equipment
- Keep work area clean and organized
- Attend on-the-job training and complete required coursework to become a certified millwright

Education and Experience:

- High school diploma or equivalent
- Completion of a millwright pre-apprenticeship program is an asset
- Ability to read and interpret blueprints and schematics
- Proficiency in the use of hand and power tools for the assembly and maintenance of machinery
- Strong problem-solving and critical thinking skills
- Physical fitness and the ability to lift heavy equipment and work in confined spaces
- Demonstrated reliability and a strong work ethic
- Willingness to learn and follow safety protocols and regulations.

Skills and Knowledge:

- Must be able to climb, stoop, kneel, crouch, crawl, reach, stand, walk, push, pull, lift, grasp, twist, and bend for extended periods of time.
- Use arms and hands to reach for, handle or manipulate objects.
- Must be able to work indoors and outdoors including times of inclement weather.
- Ability to climb in overhead structures, to work beneath machines and in close quarters performing analysis and repair work.
- Must be highly safety conscious and have ability to see and escape from dangerous situations.
- Ability to climb a ladder and step into various pieces of equipment.

Calibre is an equal opportunity employer committed to local hiring preferences and all applications will be considered on this basis. We value equity and diversity and are committed to creating an inclusive workplace environment for all employees. Calibre reserves the right to hire only those candidates who are appropriately qualified for the position advertised.

Calibre will review all applications; however, we will only contact those candidates who best fit the requirements.
