

Calibre Mining Corporation is engaged in the exploration and development of the Valentine Gold Mine located in the central region of Newfoundland and Labrador. Once in production, it will be the largest gold mine in Atlantic Canada and a major employer in the province. Calibre is a public corporation (TSX:CXB) headquartered in Vancouver, British Columbia with a regional office located in Grand Falls-Windsor, NL.

Additional corporate and Project information is available at [www.calibremining.com](http://www.calibremining.com)

Calibre is currently inviting applications for a **Pit Sampler** to join our growing team as the company transitions from mine construction to mine operations.

## **Pit Sampler**

Reporting to the Senior Mine Geologist, the Pit Sampler acts as a support role for the grade control program. They are responsible for collecting rock and chip samples, while ensuring safety and accuracy.

This position is located at the Project site, working on a 14 days in/14 days out rotation.

### **Responsibilities/Accountabilities:**

- Collect rock and chip samples in accordance with standard operating procedures.
- Record and dispatch samples, ensuring quality control and proper documentation.
- Maintain sampling equipment and ensure adherence to health and safety protocols.
- Collaborate with geologists, engineers, environmental scientists, and other team members to integrate sampling data into broader project analysis.
- Perform manual tasks (e.g., shoveling, lifting, and digging) as required.
- Offload site deliveries and maintain an organized inventory of sampling supplies.
- Ensure that all equipment is maintained and in proper working condition.
- Follow all health, safety, and quality assurance protocols.
- Perform housekeeping activities to maintain a clean and safe workspace.

### **Qualifications:**

- High School Diploma or equivalent.
- Minimum of 2 years of experience in an open-pit mining environment preferred.
- Experience working in a remote setting and rotating shifts is an asset.
- Experience with mine dewatering systems, drilling, and blasting is an advantage.

### **Knowledge and Skills:**

- Strong understanding of safety standards with a commitment to safe working practices.
- Team player with strong communication and organizational skills.

- Self-motivated, with a willingness to learn new skills.
- Mechanical aptitude and experience maintaining equipment is a plus.
- Physically fit, able to perform heavy work (lifting up to 55 lbs), and capable of extended periods of physical activity.
- Valid driver's license and clean driver's abstract required.

Calibre is an equal opportunity employer committed to local hiring preferences and all applications will be considered on this basis. We value equity and diversity and are committed to creating an inclusive workplace environment for all employees. Calibre reserves the right to hire only those candidates who are appropriately qualified for the position advertised.

Calibre will review all applications; however, we will only contact those candidates who best fit the requirements.
