

ABENGOA T&I ULC

Abengoa T&I is an engineering, procurement and construction company, specializing in power transmission lines and renewable energy power plants. We are currently seeking a Payroll Specialist to join our team in our Sydney, Nova Scotia and Stephenville, Newfoundland offices. The Payroll Specialist role requires a detail-oriented person who is able to handle multiple deadlines and priorities with a high level of accuracy. Must be a self-starter, be able to work with minimal supervision.

Job Title: Environmental Technician/Supervisor

Job Description:

Abengoa T&I, a contractor in the energy sector, is looking for an Environmental Supervisor to join its growing project execution department. Current project work includes a Transmission line in Canada. Individual will be required to move to the project site in Canada (Sydney, Nova Scotia or Stephenville, Newfoundland).

Responsibilities include but are not limited to the following:

- Develop, manage, and implement environmental management system and sustainability initiatives complying with Corporate requirements.
- Manage and develop plans, permits, and policies for air quality, hazardous waste, spill prevention, storm water, wastewater, etc.
- Perform Environmental inspections and compliance audits on Site and ensure proper communication to stakeholders. Implement follow-up corrective actions to ensure compliance with corporate, federal, State, and all environmental regulatory standards.
- Conduct training, field coaching, and assessment for environmental performance improvement.
- Provide on-site compliance support.
- Build strong collaborative relationships with all employees.
- Ensure the GHG responsibilities are being properly covered, environmental indicators and different emission scopes are collected and reported within the corporate tool– SMIS (Sustainability Management Integrated System).
- Carry out environmental training, develop and implement environmental objectives, indicators, and procedures; ensure compliance to legal and other requirements; assist preparing for internal and external audits;
- Implement continuous improvement actions, prepare reports & plans; responsible for audits related to environmental and GHG emissions inventory

Requirements:

- Bachelors or Master's Degree in engineering, environmental science, or related discipline.
- 3 to 5 years of experience in consulting and/or industrial/construction environment.

- Canada Certifications preferred.
- Excellent communication, interpersonal and analytical skills; experience writing comprehensive technical reports.
- Experience maintaining corporate management standards (either as a consultant or an internal compliance officer).
- Ability to multi-task, maintain flexibility, travel, and work independently with minimal supervision.

NOTE: this position does not provide relocation assistance.

Commencement Date: ASAP

Job Type: Full Time Permanent
