

The Techno Metal Post helical pile is a giant metal screw that is installed by a certified technician using proprietary hydraulic machinery. The pile is screwed into the ground until the desired bearing capacity is achieved. Find out more at www.technometalpost.com.

We are currently seeking an **Installer's Assistant** for Corner Brook and the West Coast of Newfoundland.

General Duties:

Lifting and transporting helical piles of various sizes. Assistance with installing piles and attachments. Gather required measurements and filling jobsite reports. Cleaning of jobsites. Maintenance of various equipment. Can be required to participate in occasional renovation work.

Requirements:

Positive attitude;
Must be handy and able to lift up to 100 lbs;
Willingness to work and ability to follow instructions;
Must possess high quality standards and impeccable customer service;
Must be available for occasional out of town work for up to 2 weeks at a time;
Class 5 Driver's licence
High School diploma or equivalent;

Advantageous Assets:

Carpentry certification / experience / graduate;
Welding certification / experience / graduate;
Problem solving abilities.

Conditions:

Full time work, 35 hrs/week. Base salary of \$15.00/hr (\$17.00/hr on overnight travels).

Start Date:

June 15th, 2016

Deadline to send your application:

May 30th 2016

You can apply at info.nl@technometalpost.com.

Thank you to all that apply; however, only candidates selected for an interview will be contacted.
